

A Seasonal distribution of Temperature (°C) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

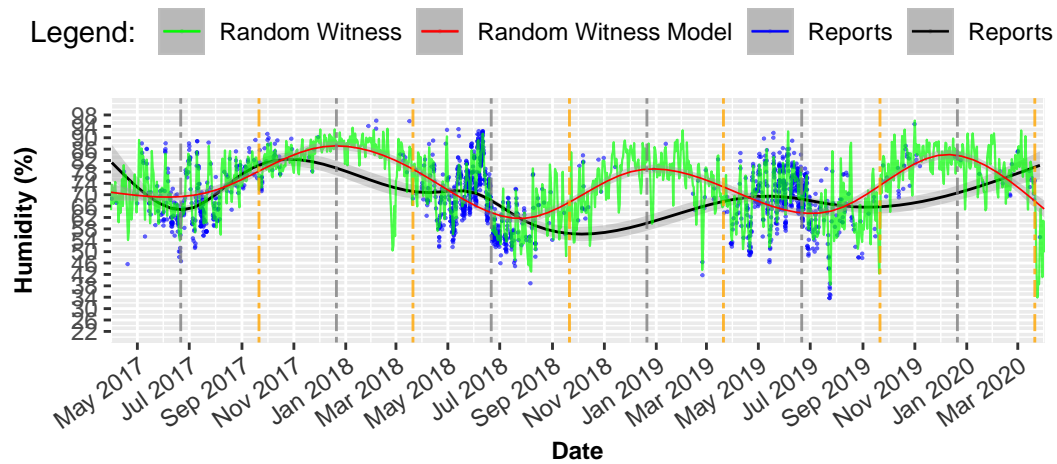

B Seasonal distribution of Day temperature (°C) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

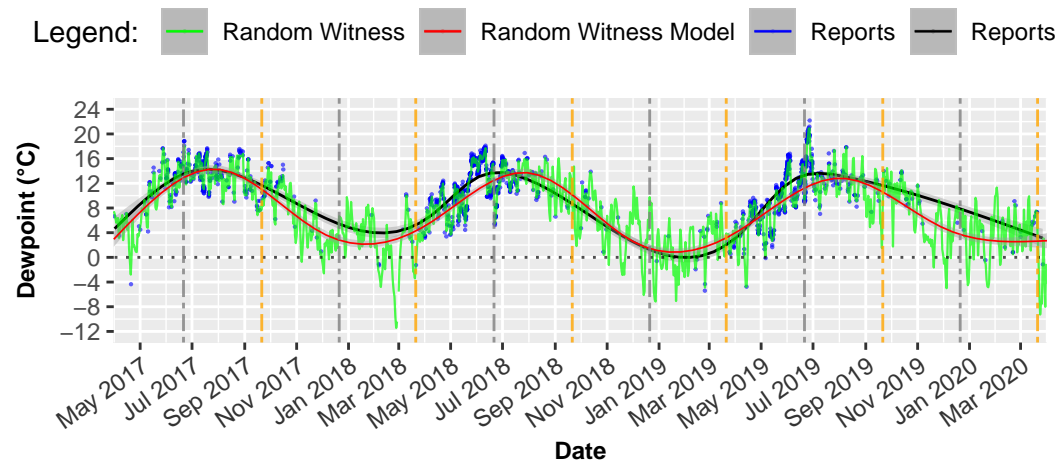

C Seasonal distribution of Night temperature associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

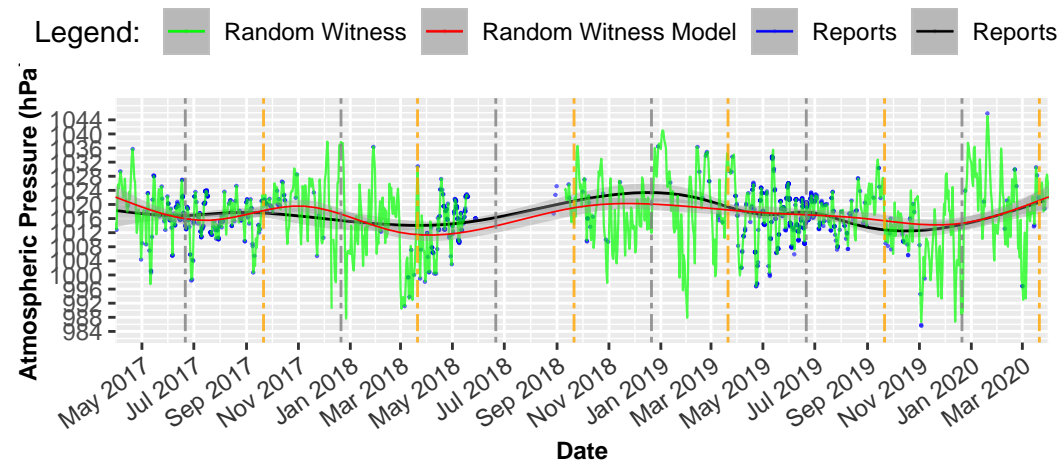

D Seasonal distribution of Humidity (%) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

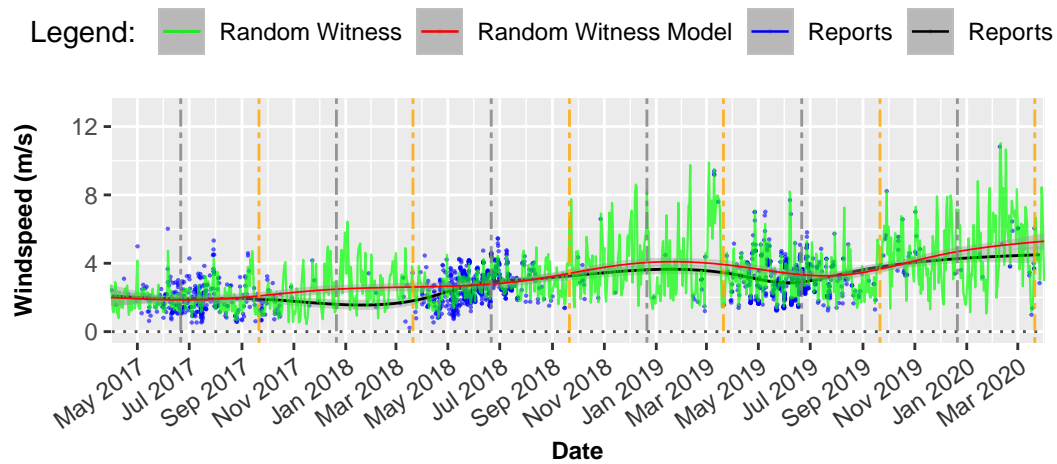

E Seasonal distribution of Dewpoint (°C) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

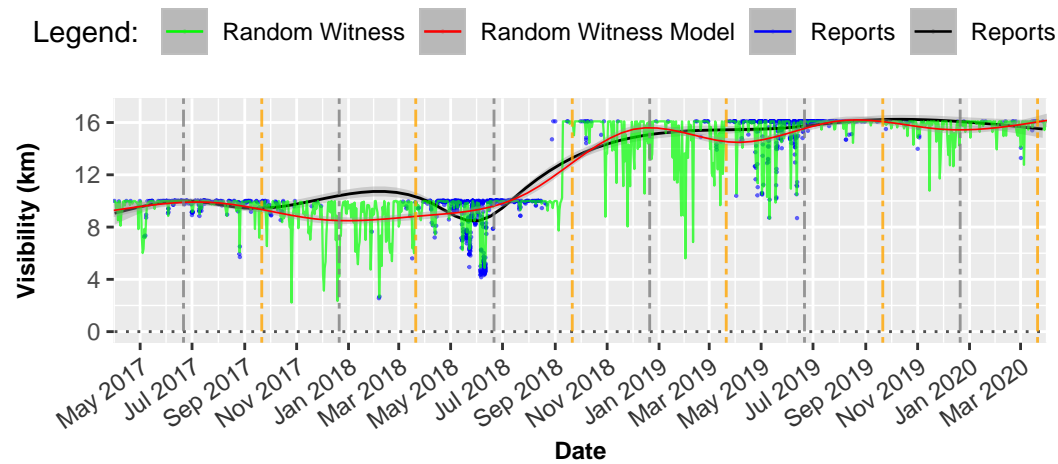

F Seasonal distribution of Atmospheric Pressure (hPa) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

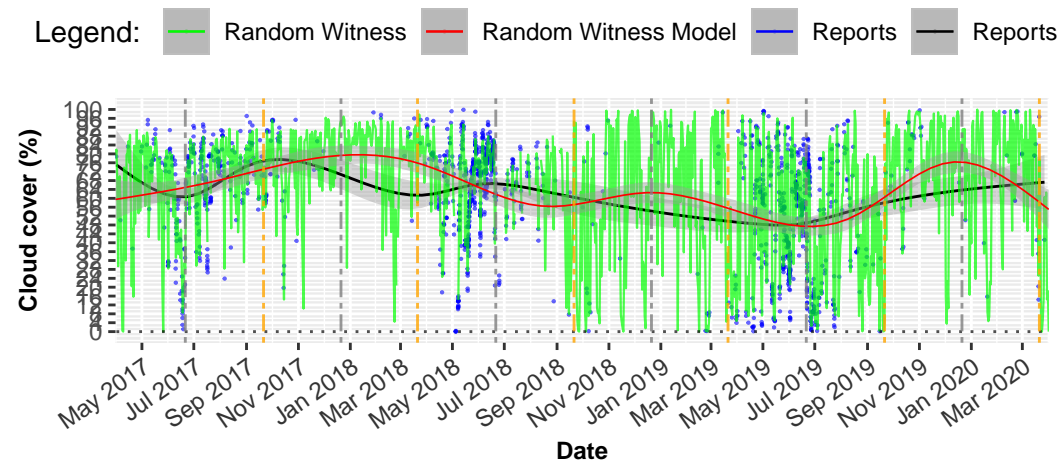

G Seasonal distribution of Windspeed (m/s) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

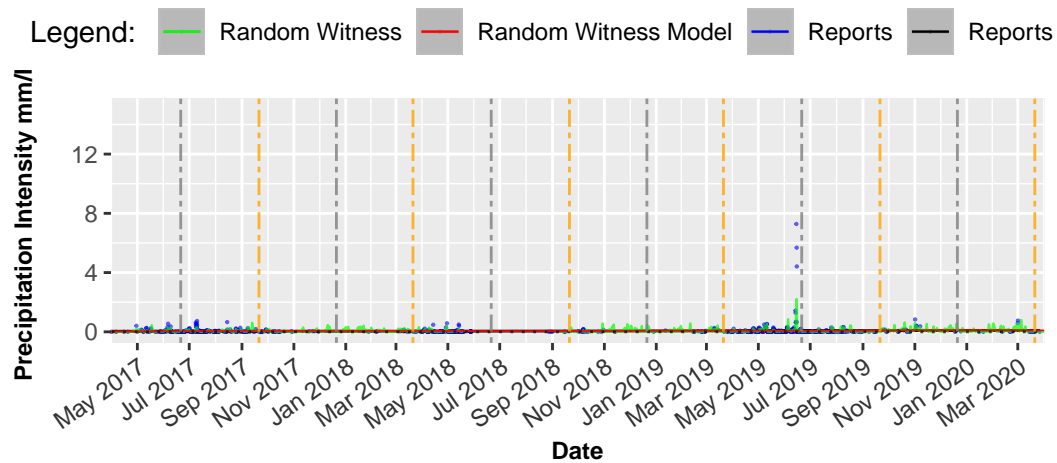

H Seasonal distribution of Visibility (km) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

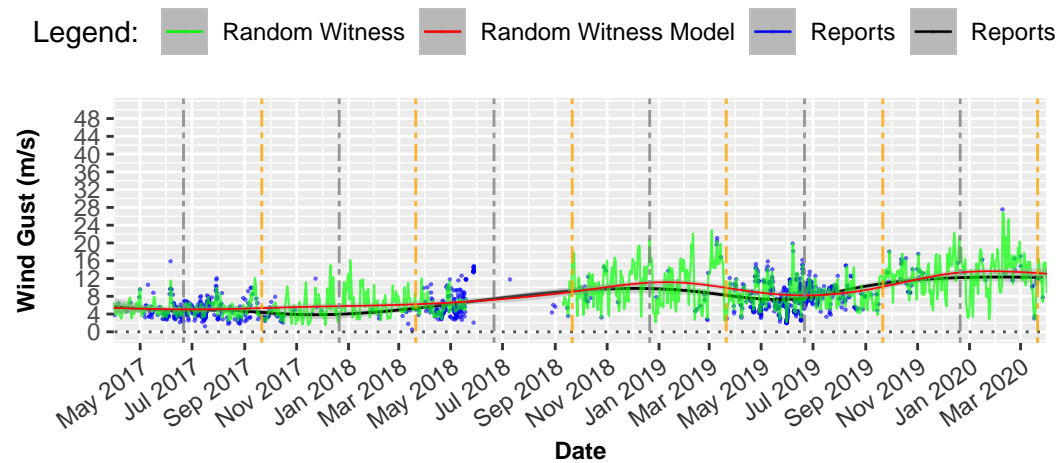

I Seasonal distribution of Cloud cover (%) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

J Seasonal distribution of Precipitation Intensity mm/h associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

K Seasonal distribution of Wind Gust (m/s) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01

L Seasonal distribution of UV Index (scale 1 to 10) associated with reports vs witnesses measurements in île-de-France from 2017-03-31 to 2020-04-01
